Project Screenshots

Resume & Project Portfolio Parser for Students

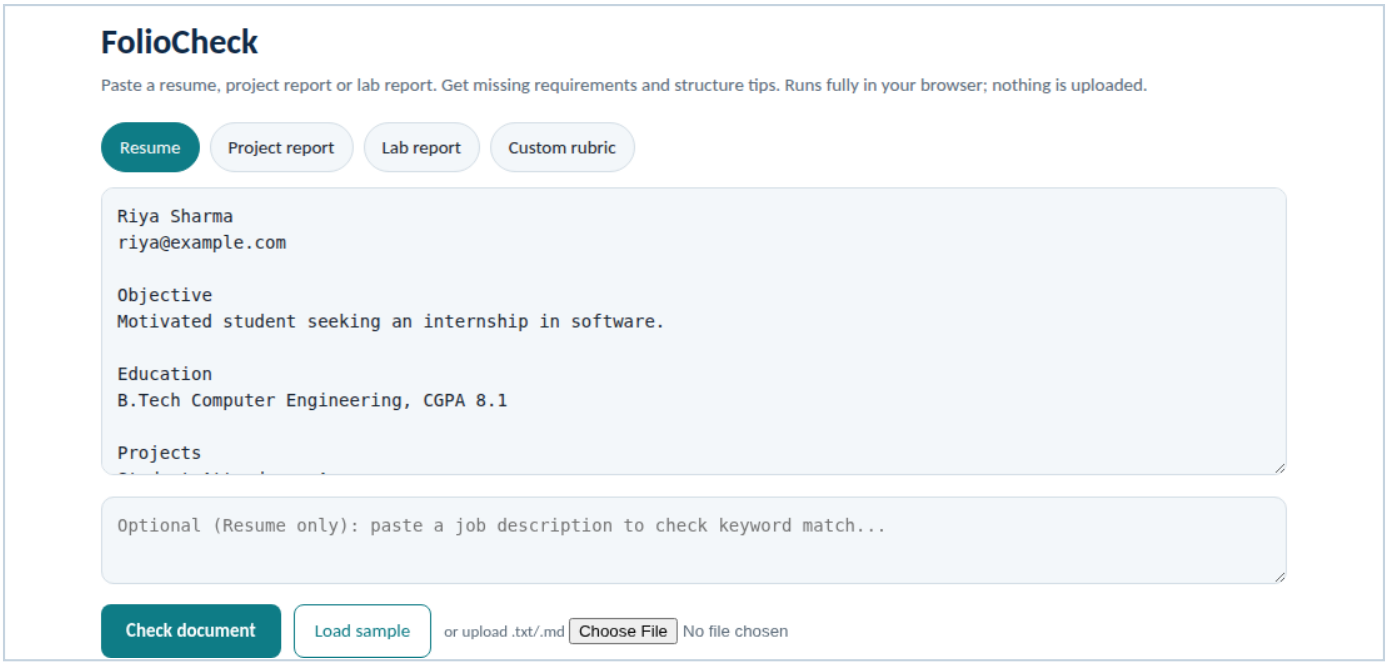

1. Home screen

Choose a document type (Resume, Project report, Lab report or Custom rubric), then paste text or upload a file.

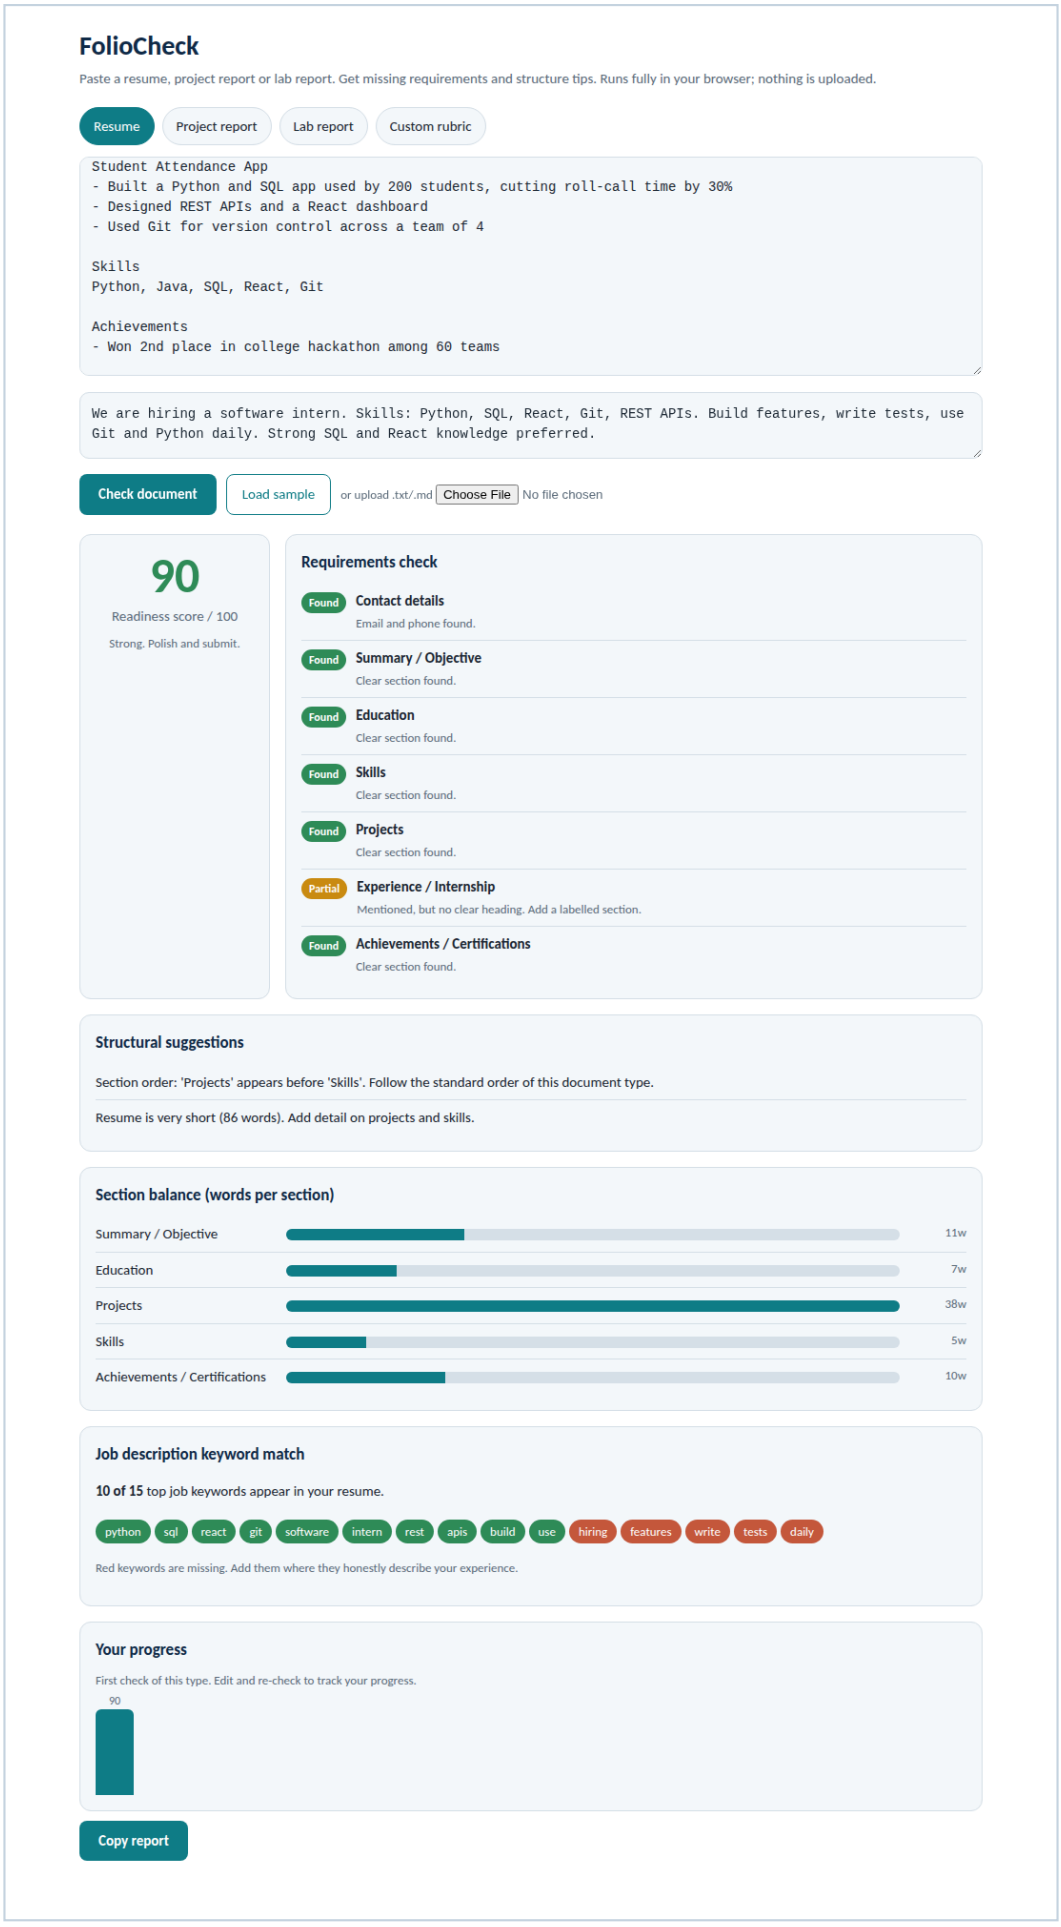

2. Loading a document

Paste your document, or load a sample to try it. Resume mode also accepts an optional job description.

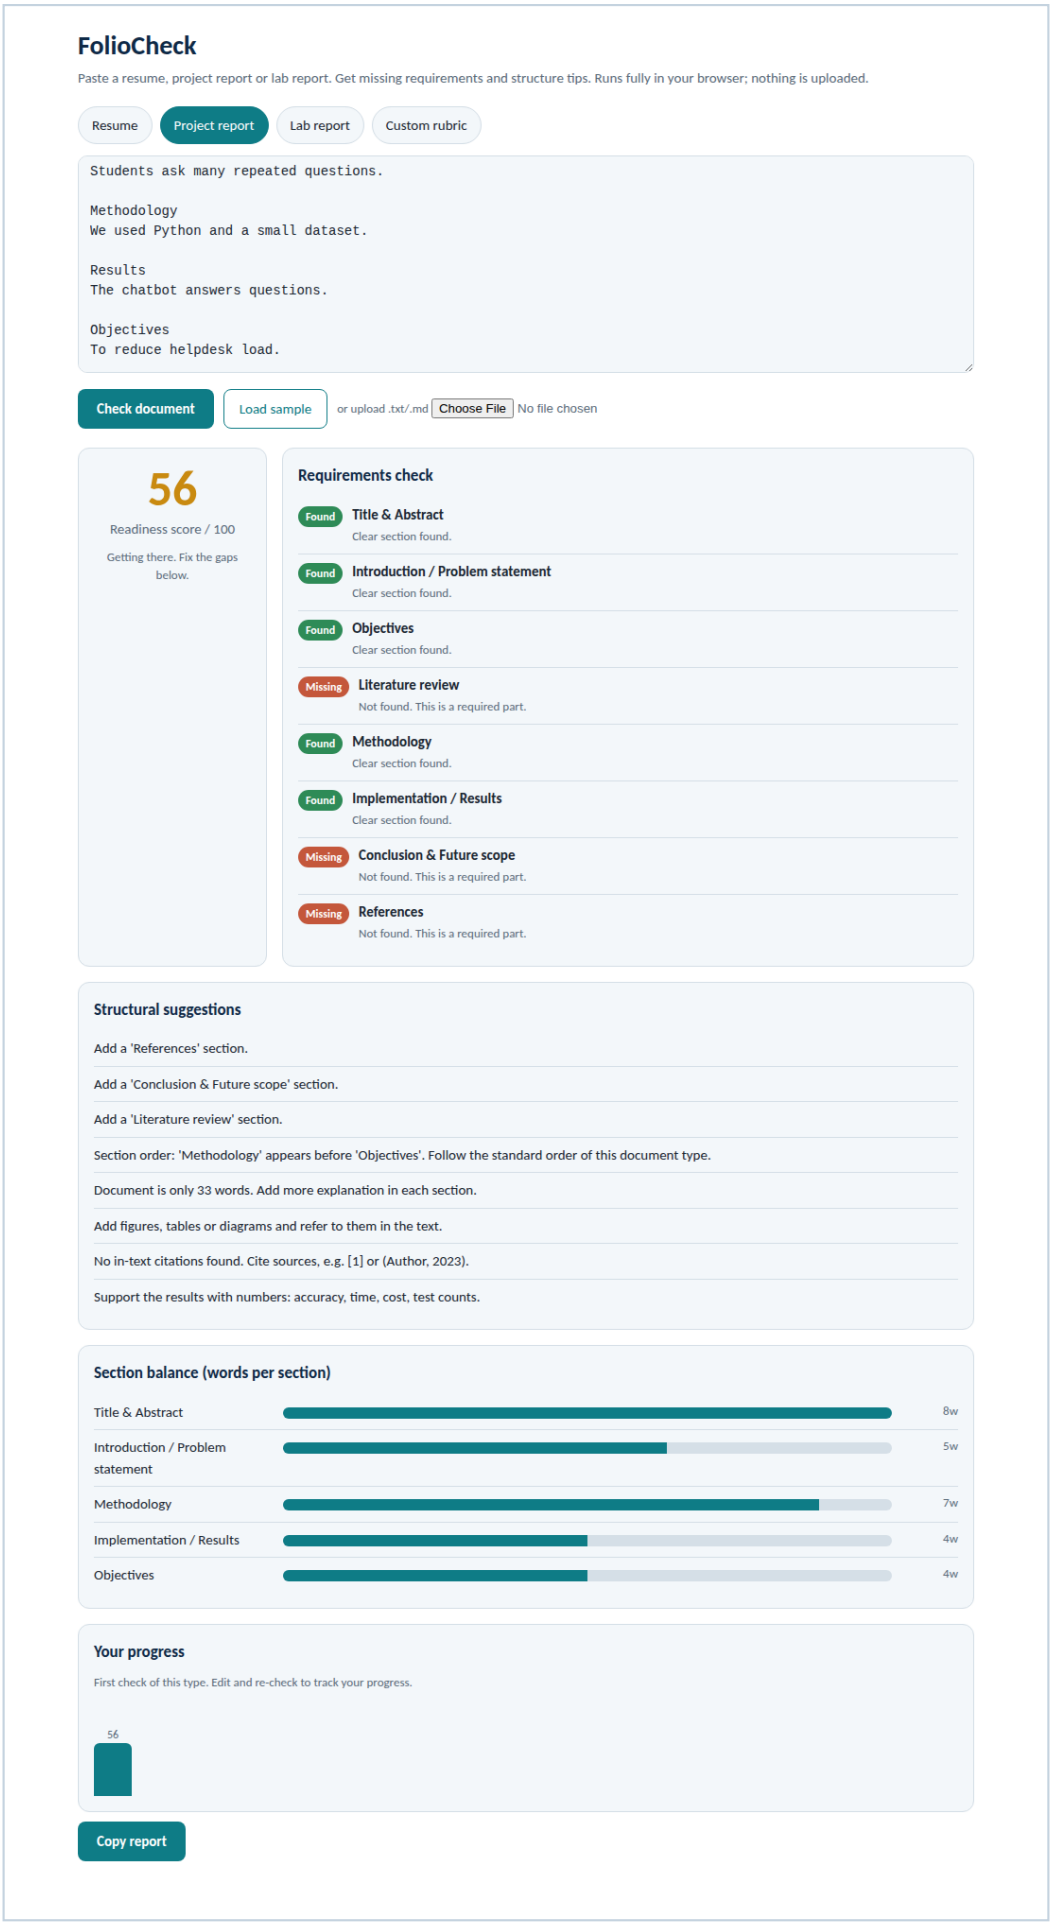

3. Resume results

Readiness score, requirements check, structural suggestions, section balance, job keyword match and progress tracking.

4. Project report results

Missing sections are flagged and unclear headings are marked Partial, with suggestions for citations, figures and results.

5. Lab report results

Checks aim, apparatus, procedure, observations, calculations and conclusion, and suggests discussing sources of error.
